

Developed unit tests to ensure code integrity and reduce the number of bugs found in production
Developed a custom theme for a content management system (CMS) that improved the look and feel of the website

 Utilized version control systems such as Git to manage code changes and collaborate with other developers

02 EDUCATION

Bhairahawa

Lumbini City College

Bachelor in Computer Science

- Develop Strong Programming Skills: Learn multiple languages and paradigms (e.g., object-oriented, functional programming).
- Master Problem-Solving Techniques: Focus on algorithms, data structures, and computational thinking.
- Understand Computer Systems: Explore operating systems, computer architecture, and networking.
- Build Real-World Applications: Gain experience through projects, internships, and collaborative assignments.
- Stay Updated on Emerging Technologies: Study AI, Machine Learning, Blockchain, and Cloud Computing.
